ABOUT THIS GUIDE

Explore the Taste of Alice Springs offers a guide with easy to recognise icons to make the decision of what sort of venue suits you and your family.

Do you need a play area? Are you travelling with your dog?
Are you gluten intolerant?

With 16 icons it is easy to see!

Some offer their menu making it simple to see what's on offer and with the phone icon, you can call and order, or book a table. Simple! It gives you an idea of the style and pricing of foods.

Alice Spring has a huge variety of flavours and venues to choose from. You can chose from Asian influences, Turkish, Italian, to great Australian favourites. The weather allows for many months of outdoor dining options for some venues, often with lovely backdrops, views, and children's play areas. Some even cater to your furry friend!

So enjoy a coffee or a meal, knowing you are supporting a local Alice Springs business and the local staff who work within.

CAFÉS

Also spelled *cafe*, small eating and drinking establishment, historically a coffeehouse, usually featuring a limited menu; originally these establishments served only coffee.

Page 27 Cafe

Hidden down a laneway off the Todd Mall, this quirky café offers a variety of all-day breakfast and lunch options including vegetarian, vegan and gluten-free, exceptional coffee and fresh cold press juices served with a smile.

A popular spot with both locals and visitors.

**Open 7 days a week
from 7am to 2pm**
(7.30am Saturdays
and Sundays)

FUN FACT! COFFEE CULTURE

The introduction of coffee and coffee drinking to Europe provided a much-needed focus for the social activities of the sober. The first café is said to have opened in 1550 in Constantinople; during the 17th century cafés opened in Italy, France, Germany, and England.

FUN FACT! FUN ON A BUN

This lunch time classic is said to have been invented by the Earl of Sandwich. An avid gambler, John Montagu was on a 24-hour streak and did not want to leave his table. He wanted to eat without having to put his cards down... thus the sandwich was made!

FUN FACT! GETTING ROASTED

Before roasting, coffee beans are green in colour and have a beany and grassy aroma. Green coffee beans do not smell like coffee at all. When coffee is roasted, 800 to 1000 different aroma compounds are developed. These compounds make the flavour of the coffee. With roast profiling, these aroma compounds can be affected which determines the flavour of the coffee.

Wonderword: COFFEE SHOP

DID YOU KNOW?

COFFEE IS ACTUALLY A FRUIT!

The beans you brew are actually the processed and roasted seeds from a fruit, which is called a coffee cherry. The coffee cherry's outer skin is called the exocarp. Beneath it is the mesocarp, a thin layer of pulp, followed by a slimy layer called the parenchyma.

FUN FACT! *RISE OF THE FOOD COURT*

A shopping mall in New Jersey is credited as the first successful shopping mall food court in the USA in 1974.

One in Toronto Ontario, Canada constructed three years earlier was unsuccessful because it was deemed “too small and insufficiently varied”.
